PRODUCTS THAT PERFORM

ENERGY RELEASE® ANTIFRICTION ENGINE TREATMENT

Tested and proven for over 20 years, ER® treats and conditions the metal of your vehicle, not the lubricant. When added to your vehicle's lubricating fluids, ER® forms smooth broad surfaces that dramatically reduce friction and wear between metal moving parts. Ideal for gas and diesel engines, compressors, power tools, heavy equipment, etc.

**ENERGY RELEASE®
MULTIPURPOSE
PENETRATING LUBE**

ER® Multipurpose Penetrating Lube incorporates the metal conditioning technology of ER® in a convenient spray form. It works well in high heat applications where ordinary lubricants typically evaporate or burn away. ER® Multipurpose Penetrating Lube guards against rust on exposed surfaces, frees bolts and fittings frozen by rust or corrosion and is an excellent antioxidant.

CUTTING AND
TAPPING FLUID**

ER® Cutting and Tapping Fluid is a superior cutting formula containing ER® which can be applied with ease. ER® Cutting and Tapping Fluid incorporates ER® to help tools cut through the hardest metals without distortion and tool wear. The fluid reduces heat and clings to tool surfaces providing superior protection to cutters, drills, taps, reamers and punches. ER® Cutting and Tapping Fluid is recommended for use on stainless steel, high nickel alloys and exotic alloys such as Titanium, Hastelloy X, Inconel and Askoloy.
